Children gain huge psychological and physical benefits from therapy programmes, using equipment that can be physical, social, intellectual and developmental improvements.

Ziggy

Ziggy offers a unique experience in positioning, play and support. There are many ways to use Ziggy to promote activity, manage postural drainage and provide support to keep your child in mid-line. Using Ziggy allows for activity and play in a number of positions and situations.

Ziggy can be used by itself or with a head, lumbar and side walls to create a number of possibilities for sitting, lying, standing and sitting. It can be used to support and improve the overall functioning of the child.

Wedges, Rolls and Mats

A range of soft, colourful and comfortable supports in various shapes and sizes, which can be used to create play opportunities and for specific therapy treatments.

Controllable and individualised support

Wedge

Wedge for use with Ziggy

Size 1: 500mm x 350mm x 300mm x 30mm

Size 2: 650mm x 400mm x 300mm x 30mm

Size 3: 800mm x 450mm x 300mm x 30mm

Size 4: 1000mm x 450mm x 300mm x 30mm

Size 5: 1200mm x 500mm x 300mm x 30mm

Wedge is used for play, support, therapy, rest and imaginative opportunities.

Corner Seat

The Corner Seat is available in three sizes to suit children from six months up to approximately 15 years. It is an adjustable floor based seating unit that can be used to improve the postural control and stability of the child. It is comfortable and easy to use.

Wedges

Wedges are used to improve the feel of the seat and shaper your child’s position. They can be used with Ziggy to increase the contact area and improve stability.

Rolls

Rolls are a great way to provide stability and balance in a particular area. They are used to improve the feeling of support in the seat to improve the stability of the participant.

Always Thoughtful

Durable, Colourful Cushions

Cushions are made for durable use and they have been designed to fit the contours of your child’s body. They are available in a range of sizes and can be used to support various positions.

Range of Accessories

Wedge for use with Corner Seat

Standard Strap

Optional Abduction Block for Wedge

Side Walls for Wedge

Jenx Corner Table

The Jenx Corner Table is an ideal first seat for any child and can be used beside the legs to prevent an out-stretched leg position.

Always Encouraging

Therapy equipment can improve your child’s outlook on the world and benefit in a variety of ways.

Children gain huge psychological and physical benefits from therapy programmes, using equipment that can be physical, social, intellectual and developmental improvements.
Nursery Table by Jenx

The Jenx Nursery Table is available in various sizes to suit children from nine months to six years old. It is a mobile plastic play table which may be set flat, angled or as an easel. The Jenx Nursery Table is cheerful and adaptable allowing the Nursery Table to be altered to suit individual needs or situations. The frame is adjustable for height and the surface is comfortable and large enough to allow the child to get really close to his or her table-top activities, thus developing skills to maintain a neutral hip position.

The Nursery Table can be altered to allow the Nursery Table to be used as an easel or by children who may need support in a sitting position. The frame is adjustable for height and the surface is comfortable and large enough to allow the child to get really close to his or her table-top activities, thus developing skills to maintain a neutral hip position.

The Nursery Table is easy to assemble and adapt to suit individual needs or situations. The frame is adjustable for height and the surface is comfortable and large enough to allow the child to get really close to his or her table-top activities, thus developing skills to maintain a neutral hip position.
